Slow Surf Approach...

Every day starts with a surf check. Your coaches decide the plan based on what the ocean is doing, not a printed itinerary.

We split the group on the day based on level and interest. Some want the long sessions at the point, some want the drive and the explore. Both are on the table.

If the surf goes flat, that is not a problem. Baboon Point rock art, Muisboskerm, Lamberts Bay. Or we stay at the house, play darts, braai and enjoy the quiet.

BOARDS & GEAR

- Boards. Bring two or three. A groveler, a step up and a longboard covers the range up there.
- Wetsuits. A 4/3mm minimum. A hood helps a lot and booties are worth it. Water sits around 11 to 15 degrees.
- Not sure what to bring? Come see us at the shop. We have the stock and the experience. We will get you sorted.
